Skills

- **Languages**: C++, Python, C, Java, DSA
- **Web Technologies**: HTML, CSS, JavaScript
- **Data Science**: NumPy, Pandas, EDA, Tensor Flow
- **Visualization**: Matplotlib, Seaborn, Microsoft Excel, Power BI
- **Tools/Platforms**: MySQL, Git, GitHub
- **Soft Skills**: Problem Solving, Team Player, Leadership, Adaptable

INTERNSHIP

World Currency Converter-Web Application | Certificate Nov' 25 – Dec'25

- Engineered a responsive web-based currency converter enabling real-time conversion across multiple global currencies using live exchange rate APIs
- Integrated and optimized API-driven data handling with local storage caching, automated refresh, and error-handling mechanisms to improve performance and reliability
- Crafted an intuitive, mobile-first user interface with dynamic currency swapping and standardized currency formatting for enhanced user experience

Tech: HTML5, CSS3, JavaScript, REST APIs, DOM Manipulation, Local Storage, Responsive Web Design

Project

Comprehensive Excel-based solution | GitHub Mar' 25 – Apr' 25

- Optimized data processing efficiency by structuring datasets with organized tables, formulas, and workflow-friendly layouts
- Automated calculations using advanced Excel formulas and functions, reducing errors and improving analysis accuracy by up to **95%**
- Developed interactive Excel dashboards and charts to transform raw data into clear, actionable insights highlighting key trends and performance metrics

Tech: Microsoft Excel, Pivot Tables, Charts, Data Cleaning, Interactive Dashboards

Data-Driven Insights on Mortality Trends in the U.S | GitHub Mar' 25 – Apr' 25

- Cleaned, transformed, and validated large real-world datasets using Pandas and NumPy to ensure accuracy by **95%** and consistency in insights
- Created insightful visualizations in stacked area charts, heatmaps, correlation maps, and pie charts using Matplotlib and Seaborn to clearly communicate findings
- Identified meaningful public health observations up to **10k** such as COVID-19 spikes and leading causes of death, demonstrating strong analytical interpretation skills
- Documented the complete workflow and results in a Jupiter Notebook to showcase reproducibility, clarity, and professional data storytelling

Tech: Python, Pandas, NumPy, Matplotlib, Seaborn

Certificates

- Cloud Computing | NPTEL | **Link** Nov' 25
- Programming Using C++ | Infosys Springboard | **Link** Aug' 25
- Computational Theory | Infosys Springboard | **Link** Aug' 25
- Peer-to-Peer Protocols and Local Area Networks| Coursera | **Link** Oct' 24

Achievements

- **Secured place in IFH** Oct' 23
  Selected as Top 10 writers in India | **Link**

Education

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 5.82*** *Aug' 23 – Present*
- **Narayana Collage** Madhapur, Telangana
  Intermediate; ***Percentage: 82%*** *Apr' 22 – Mar' 23*
- **Viswa Bharati EM High School** Gudivada, Andra Pradesh
  Matriculation; ***Percentage: 100%*** *Apr' 20 – Mar' 21*
